INTRODUCTORY

IN presenting our price list for 1914, we again take this opportunity to thank our customers for their liberal support and patronage, and to assure them that their orders will receive as careful attention in the future as they have done in the past.

All our business relations last year were exceedingly satisfactory. Many customers wrote thanking us for the high quality of stock sent them; all of which we very much appreciate.

This year we have again added to our greenhouse capacity, and have otherwise added considerably to our stock and facilities, and are now in a better position than ever before to handle high class stock.

We shall always exert ourselves in maintaining our reputation for high class goods, and those who intrust us with their patronage may rest assured that the stock supplied will be the very best procurable.

CHRYSANTHEMUMS NOVELTIES FOR 1914

The Chrysanthemum has become a big problem to the novelty introducer. The standard today is already high and hard to beat, and we have all to be extremely critical in our selections. This year we have tried out over fifty new aspirants, some of our own raising and others from the most reliable sources. By rigid selection we have narrowed this list down to those below. In them we consider that we have something quite distinct and superior in the color and season to any existing sorts and can thoroughly and conscientiously recommend them. The stock offered is strong healthy plants from 2¼-inch pots and success from the start will be assured.

Gorgeous. A golden yellow Japanese; large broad flowers of fine form. Petals curly and fluted.

Greystone (Waite). A very beautiful golden bronze; full and of good form. A fine commercial variety and particularly adapted for large bush plants. 75c. each; \$7.50 per dozen.

Mrs. H. J. Jones (Jones). An immense yellow Jap reflex. That can be best described as an improved Mrs. Lopes. A healthy vigorous grower and full well built flower. One of the very best. Take bud 1st week in August. 75c. each; \$7.50 doz.

Mrs. G. Richardson (Mileham). A charming rosy cerise pink of fine build and large enough for an exhibition variety, with fine foliage and strong erect stems. It will make a splendid variety for a bush plant.

Mrs. R. C. Pulling (Jones). A fine incurving Japanese variety; lemon yellow in color; with long broad florets. Very thick and leathery in substance. A fine exhibition sort.

Mrs. W. T. Smith (Smith). A seedling from Mrs. A. T. Miller that surpasses its parent in every good quality. The flowers are glistening white, florets very long; wide and of great substance. It is a fine keeper and all round first-class thing. 75c. each; \$7.50 dozen.

Master Rex (Mileham). A fine distinct Japanese of fine form. Color rich glowing amber; a heavy well shouldered flower that will be much seen on the exhibition tables.

PRICE—Strong plants from 2¼ inch pots 50c each; \$5.00 dozen.

NEW EXHIBITION VARIETIES FROM ELMER D. SMITH & CO.

Flamingo. An exquisite shade of crimson, reflexing perfectly, showing only the upper surface of the petals; of large size; destined to become one of the best exhibition crimsons. Season first week of November; best bud August 20th.

Nerissa. Very broad petals, forming a high-rounded incurved bloom of the largest size. Similar in color to Rosemaure Rosy Mauve. Strong upright grower with rigid stem. Season second week of November. Best bud September 5th.

Plants from 2½ inch pots, \$1.00 each. \$10.00 per dozen.

HARDY PERENNIALS

We also carry a very good collection of herbaceous perennials, strong field grown stock, of which we will gladly send a list should any one want such.

We will also be glad to render any assistance in their selection for any situation that they may be wanted for.

Let us have your list to figure on.

CARNATIONS

NOVELTIES FOR 1914

Gorgeous (Peter Fisher). Another sterling variety from "The Old Master." A giant in growth and size of flower, but not quite so free as the smaller sorts. It is the "American Beauty" of the carnation family. The color is salmon scarlet shading to rosy cerise.

The variety to grow for high quality flowers. Plants from 2¼ inch pots.

\$4.00 per doz. \$25.00 per 100.

Philadelphia (Brown). A high class every day carnation, possessing all the requirements of a true "Bread and Butter" variety. The color is true rose pink. The color that made "Fiancee" famous.

Matchless (Cottage Gardens). One of the most promising whites ever offered. The calyx is good. The flowers are large, fringed and very fragrant, and are borne on long stiff stems. It is exceptionally free. It was awarded the Gold Medal at the International show last spring.

Mrs. Cheney (Barr). A very free variegated variety. The shading is distinct from any other and darker than "Benora." Will be a welcome addition to this class. Habit and growth is all that can be desired.

Princess Dagmar (Patten). A fine crimson with large full well formed flowers; strong rigid stems and excellent habit.

Prices	Rooted Cuttings	Plants from 2¼ inch Pots
Per 12	\$ 3.00	\$3.50
Per 25	5.00	6.00
Per 100	15.00	20.00

CARNATION NOVELTIES OF 1913

British Triumph (Engelmann). A rich glowing crimson with an old clove perfume. The flower is 3½ inches, well built and positively non-bursting calyx. A free producer with rigid stem and excellent habit.

Enchantress Supreme (Dailedouze). A real improvement on the "Parent Enchantress" possessing all the vigor and productive qualities of the old favorite. The color is more intense and does not bleach out. The bursting calyx which made "Enchantress" unprofitable is eliminated. This is surely the most profitable carnation on the market today.

Lady Northcliffe (Engelmann). The color is a pleasing salmon pink somewhat resembling "Pink Delight." It has a well built-up flower and just enough in it not to burst the calyx. The stem is long and wiry and it is absolutely the freest flowering carnation we have ever grown. It will become a standard when better known.

Northport (Cockcroft). A free flowering dark pink somewhat resembling Mrs. C. W. Ward. A healthy vigorous grower which all should have.

CARNATIONS CONTINUED

Wm. Eccles. We placed this variety on the market a year ago with absolute confidence and growing alongside of other last year novelties and standard sorts it is the best thing that we have on our place today. The color is a rich scarlet with long rigid stems; perfectly formed $3\frac{1}{2}$ inch flowers and non-bursting calyx and as profitable as any thing in its color.

Prices	Rooted Cuttings	Plants from $2\frac{1}{4}$ inch Pots

Per 100	4.00	7.50

ROSES (Indoor) NOVELTIES FOR 1914.

Hadley (The Montgomery Co.). Hadley is a development from a line of seedings raised by Alex. Montgomery Jr., the varieties used in this development being Liberty, General McArthur, and Richmond. In color it is deep velvety crimson retaining its brilliancy at all seasons of the year. The variety is double and buds are well formed. The fragrance is excelled only by American Beauty. It is a strong rapid grower and the flowers are borne on long stiff stems. It has proven itself under thorough trial to be an all the-year-round forcing variety.

Killarney Brilliant. (Dickson). A sport from the original Killarney grown in the open ground. Killarney Brilliant has the same habit of growth and freedom of bloom as the parent Killarney, but the flower is twice as large and has double the number of petals. The color is a brilliant pink; almost scarlet in the dull weather and it does not fade out as the other Killarneys do. It is distinctly in a class by itself, and will be universally grown both indoors and outside.

Grafted Plants.

$2\frac{1}{4}$ inch, 75c. each; \$7.50 doz.; \$40.00 per 100.

3 inch, 85c. each; \$8.50 doz.; \$45.00 per 100.

4 inch, \$1.00 each; \$10.00 doz.; \$50.00 per 100.

ROSES CONTINUED

NOVELTIES OF 1913

Milady (Pierson). Has proved itself to be the best red rose for all purposes. It lacks the brilliancy of Richmond, but in every other respect it is much superior to the old favorite.

Mrs. Charles Russell (Waban Conservatories). Is all that its introducers claimed; is a vigorous grower and remarkably free for its size. It is clear rose pink in color and has the fragrance of the "Old Cabbage Rose," and it can be successfully grown in a mixed house. It belongs to the "American Beauty" class but will out-bloom the Beauty four to one.

Mrs. Geo. Sawyer (Totty). A big improvement on the old "Bridesmaid." It is healthy, free and vigorous, and can be relied on every day. It will be popular for years and should be the standard pink for all to grow.

Grafted Plants.

2 $\frac{1}{4}$ inch, 30c. each; \$3.00 doz.; \$22.50 per 100.

3 inch, 40c. each; \$4.00 doz.; \$27.50 per 100.

FERTILIZERS

We are regular agents for the sale of Rogers and Hubbard's celebrated bone base fertilizers, and will be glad to quote bottom prices, where a quantity is needed.

Hubbard's Pure Raw Knuckle Bone Flour. This is the kind you want for your Roses, Mums and Carnations. The bone is white, raw, and fresh, and in a perfectly natural condition. This bone is not dissolved with acid, but is **ground** to a white flour, and is quickly available as a plant food. Do not confound this with the ordinary brands of bone, which are dissolved with oil of vitrol. They are all right for the open fields, but positively dangerous in a greenhouse.
Per bag of 100 lbs., \$3.00; per ton, \$45.00.

Hubbard's Bone Base Complete Fertilizer. This is what you need for your garden and general crops. Consists of pure animal tankage, nitrate of soda, and potash salts, and does not contain one pound of acid phosphate.
Per bag of 100 lbs., \$2.50; per ton, \$45.00.

Hubbard's Bone Base Soluable Potato Manure. Made up of pure dissolved raw knuckle bone, nitrate of soda, pure animal tankage and sulphate of potash. This is a highly concentrated fertilizer and is good for general crops as well as potatoes.
Per bag of 100 lbs., \$3.00; per ton, \$52.00.

Also **Hubbard's Bone Base, "Grass and Grain Fertilizer," "Oats,"** and **"Top Dressing Fertilizer,"** and others, on which prices will be gladly quoted.

Clay's Fertilizer. 56 lb. bags, \$4.00; 112 lb. bags, \$7.00.

GRASS SEED

Elmsford Evergreen Lawn Grass Mixture—We have made an extensive study of grasses, and have here combined in one mixture several of the very best kinds in such proportions as will give the best results. Some of the kinds are naturally early and give the lawn a bright color as soon as spring opens up. Others will stand the heat and drought of summer, and others again will keep growing until late in the Fall. We consider our "Elmsford Evergreen Mixture" to be as good as any on the market today.

For new lawns, sow 85 to 100 lbs. to the acre.
Per bushel (20 lbs.), \$6.00.

The Elmsford Shady Spot Grass Mixture—A combination of grasses that naturally grow in shady places, of guaranteed purity and free from weeds.
Per bushel, \$6.00.

Permanent Pasture Mixture.—A combination of various grasses recognized for good pasturing qualities, a combination that will keep growing from early spring until late in the Fall. Sow 50 to 75 lbs. per acre.

Per bushel (14 lbs.), \$3.50.

Hay Mixture—A superior mixture, suitable for hay and permanent pasture, of guaranteed purity. Sow 40 lbs. per acre.

Per bushel (14 lbs.), \$3.50.
